

Course Information

- Course Code: CS106A
- Course Name: Computer Programming I
- Instructor: 林基成 (Ji-Cherng Lin)
- Day/Time: Mon 13:10 - 15:00, Tue 16:10 - 18:00
- Reference:
 - C++ How to Program, Late Objects Version, 7/e, H. M. Deitel and P. J. Deitel

Contact Information

- Office Location: Room 1304
- E-mail: csjclin@saturn.yzu.edu.tw
- Office Hour:
 - Mon 15:00 - 18:00, Tue 18:00 - 19:00

Objectives

- This course will teach students the basic elements of procedural-based C++ programming.
- It is expected that students will be able to design basic C++ programs at the end of this course.

Topic Outline

1. Introduction to C++ Programming
2. Control Statements
3. Functions and an Intro to Recursion
4. Arrays and Vectors
5. Pointers
6. Text Files
7. Binary Files
8. Sparse Matrices

Evaluation

- Homework 20%
- Midterm Exam 1 20% 10/19
- Midterm Exam 2 20% 11/23 or 12/7
- Final Exam 40% 1/3
